

Veterans Affairs Medical Center Salisbury Long Term Care 1

- New Atlantic constructed a new long-term care facility addition and performed renovations on 3 floors of the existing facility.
- The exterior components of the addition include metal studs with brick veneer HardiePlank siding and a metal truss shingle roof system.
- The interior includes residence, family, meditation, and game rooms.
- The facility remained occupied during the phased renovation and included office renovations and a new atrium area with restaurants, barber shop, markets, recreation area, and theater for the residents.
